The Enneagram is a description of nine personality types, describing how a person's thoughts, perceptions and defense mechanisms are organized. Richard Rohr had this to say: "The Enneagram brings into focus the essential truth of our soul. It does this in a way that most people have seldom or never experienced. When I first learned about the Enneagram. . .I felt that a veil had fallen away and it became clear that I had previously been up to: I had always done the right thing--but for false motives."
